Expense Track 24.3 Release Notes

Release 24.3 for Expense Track is now available and includes the following changes:

Expense Manager Updates

VSM – Updates to Standard reports "Expense Fuel Usage Updates" and "Expense Fuel Usage Updates in gallons"

Corpay Expense Track users with Tenant Admin role and who run reports in VSM are now able to view the Standard reports "Expense Fuel Usage Updates" and "Expense Fuel Usage Updates in gallons" with correct values mapped to the Net Amount and Gross Amount column. Before the update, the Standard reports "Expense Fuel Usage Updates" and "Expense Fuel Usage Updates in gallons" were not reflecting correct values in "Net Amount" column. With this update, users should also view a newly added column, Transaction Type, to the report.

First Name	Last Name	Transaction Date	Amount	Merchant Name	Expense Description	Product Description	Quantity	Price	Gross Amount	Discount	Net Amount	Transaction Type

Spanish Language Support on Mobile App

All Corpay Expense Track users using the Expense Track mobile app should now have Spanish language available on all screens (see *sample screens below*). This enhancement is in place due to the need for Spanish language support on the Expense Track mobile app.

Expense Track 24.3 Release Notes

April 2024

A user should set up their language as Spanish to be able to use the Spanish language support.
